Safety meets Style: The CAMULINO

Its trendy, fresh and cheeky appearance makes this helmet from the Swiss helmet specialist CP very popular among cool kids, style-conscious teens and ambitious junior racers.

More than a decade's experience in development and production of high-quality winter-sport helmets makes the All-in-One visor helmets even more reliable and safe for kids and teenagers. In addition to safety, its look plays a decisive role for youngsters: this cool collection includes everything, from the individual eye-catcher to the discreet showpiece. Visor helmets are also suitable for those who wear glasses.

Youngsters are safe, parents are relaxed - unlimited fun on the snow is guaranteed

With its compact, dynamic design and the new rear-mounted impact protection, the CAMULINO offers even better protection against bumps from behind and in case of backward falls. The extremely durable shock-absorbing material has been developed for shoulder, elbow and knee guards in motorcycle racing to prevent serious injuries.

The easily replaceable panoramic visor is integrated in the helmet and ensures additional safety and clear vision, without fogging and steaming up - slipping or lost ski goggles are now nuisances of the past.

The optimised, innovative, size adapting system with a rotating ring ensures a perfect fit; the extra soft ear pads and inner lining make the CAMULINO super comfortable and pleasant to wear.

The controllable ventilation system developed by CP provides optimal adjustment inside the helmet to changing temperature conditions.

Details:

- Adjustable ventilation system for ideal climate control
- Optimal fit thanks to the size adapting system and its rotating ring, which ensures the perfect head adjustment
- The panoramic visor provides optimal protection against wind and snow, while offering a wide field of vision and easy interchangeability in only a few simple steps without tools.

- Maximum comfort and protection also for those who wear glasses, without annoying fogging, steaming up or the need to change glasses

CP-FASHIONATSPORTS – Swiss brand made in Europe

Swiss quality meets Italian fashion flair. In its ALL-IN-ONE ski helmets, the Swiss manufacturer based in Ebmatingen, Zurich, combines sophisticated materials, comfort and elegance. So “Excellence in Elegance” is not just a catchword but a credo that CP has remained true to for years. The head and heart of CP is Claudius Pfister, who established the brand over 10 years ago. The production location in Italy is particularly suitable for close cooperation between developer, manufacturer and experienced testers. In this way, any ideas or suggested improvements find their way directly into ongoing production processes. With strategic vision and boldness, Pfister pursues the objective of ensuring that his products remain state-of-the-art, now and in future.
