THE ALL IN ONE HELMET

With its CP CAMURAI CARBON, CP presents the flagship of its All In One helmet collection. Maximum protection thanks to high-tech material. Carbon is used wherever greatest strength and small weight are desired - as in airplane construction or Formula 1 racecar bodies.

BY

The visors of the CP All In One helmets are not just of outstanding optical quality - they also provide an invaluable advantage to wearers of glasses. Even with the visor closed, they can wear them and therefore don't have to compromise their preferred modes of seeing.
